**NEW & EXCLUSIVE: CABLE SHARK & WIRE ROPE SYSTEM**

Introducing the all new **Cable Shark System** from Ductmate. This brand new precision engineered system offers incredible strength, confident safety, and amazing install flexibility.

- Engineered for strength and durability
- Very easy to hang (follow the arrows), saving valuable labour time
- Available in 2 sizes for your required loads: 125lbs (CS125) and 250lbs (CS250) models
- Wire available in 500ft/1000ft spools
- Zinc cast housing and end caps
- Hardened steel springs and wedges

**NOTE:** Cable Shark must be used as a System with the provided wire. Cable Shark Wire will have a green thread entwined to ensure easy recognition. Use of any other wire with this system will invalidate Ductmate's safety testing and void the warranty.

**IMPORTANT:** Cable Shark is not interchangeable with Ductmate's former Clutcher & Wire System!

**SYSTEM**

**CABLE SHARK: DOUBLE BORE LOCKING MECHANISM**

The new double bore locking mechanism in two sizes offers much greater flexibility and versatility for all types of hanging systems. **Cable Shark** locks where you set it for easier leveling and incredible holding power.

**WIRE ROPE : TWO WEIGHT SIZES**

Wire come in two sizes to meet the requirements of every job. Max-load ratings of 125lbs and 250lbs with a superb 10x Safety Factor for your peace of mind.

**FERRULE CLIP : COST SAVING HANGING OPTIONS**

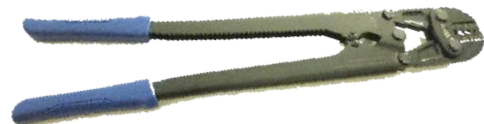

The option to hang with only one **Cable Shark** and a ferrule clip saves you cost and provides many more hanging options on site. Cut-to-length premade options with a ferrule clip are also available by special order in 5ft increments or special order lengths. (Call for details, minimum order quantities.)

**TOOLS**

**DUAL ACTION WIRE CUTTER & CRIMPER: HAND TOOL**

An all-in-one, no-fray wire cutter and crimping tool. The tool smoothly cuts both the 125lb and 250lb wire. The crimper makes putting ferrule loops on the **Cable Shark** wire a breeze for solid holding power and cost saving hanging options.

**LARGE WIRE CRIMPER: HAND TOOL**

This crimping tool can be use to make strong ferrule loops, especially good for the 250lb wire.

**SINGLE HAND CABLE CUTTER**  
Multi-function hard wire/wire rope/cable cutter

**BENCH MOUNT WIRE CRIMPER: HEAVY DUTY BOLT-ON TOOL**

This heavy duty crimper has the option to bolt to your work bench. Perfect for large projects that require many ferrule crimps.

The strength, safety, and versatility of the **Cable Shark System** offers a large variety of hanging options. Using Ferrule Loops and the Cable Shark Mechanism can help save cost and provide a quick, safe, and easy installation.

**LIMITED TIME OFFER**
